

Thursday 30th July, 2009

5:30pm – 7:30pm

Royal Brisbane & Women's Hospital
Butterfield St,
Herston QLD
Seminar Room 2

Primary Immune Deficiency Patient Meeting

The Immune Deficiency Foundation of Australia will be holding a patient meeting in Brisbane. This meeting is open to all people with PID, their families, supporters and healthcare teams. Membership of IDFA is not a requirement for attendance.

The meeting will provide people with PID the opportunity to:

- Hear Dr David Gillies speak about Subcutaneous IVIg Therapy and the Nature of Immunodeficiency
 - Meet the new IDFA Support Services Officer, Joy Williams
 - Meet other people with PID and their families
 - Share stories and experiences

This meeting is free to all attendees. A light supper will be provided. Therefore it would help us with planning if you could RSVP. Children are welcome at this patient meeting. Please advise Joy if you are planning on bringing your children and their ages so that we can try to cater for them. Please RSVP as soon as possible to:

Joy Williams, IDFA Support Services Officer, support@idfaustralia.org
or freecall: 1800 465 849

(Note: it is never too late to RSVP if you have only just heard about this meeting)

**WE NEED YOUR HELP TO MAKE THIS MEETING A SUCCESS.
PLEASE PASS ON DETAILS ABOUT THIS PATIENT MEETING TO ANYONE
ELSE YOU THINK MAY BE INTERESTED IN ATTENDING.**
