

2 - 4pm

Saturday 30th January, 2010

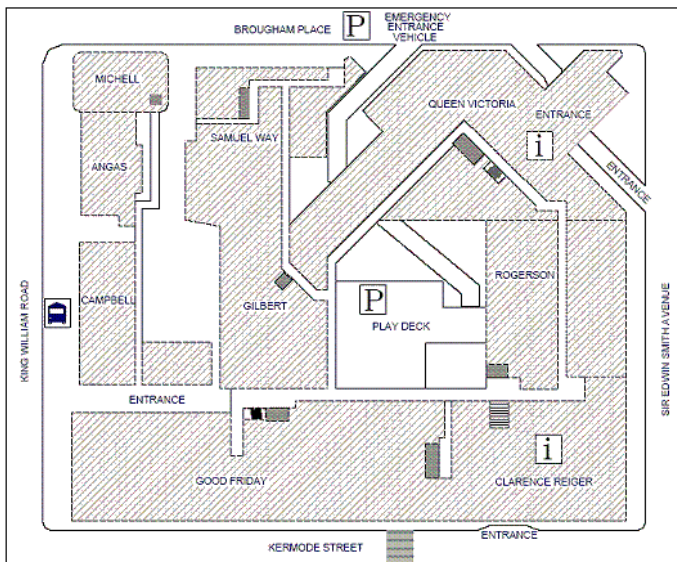

Alan Crompton Room, ground floor of the Samuel Way Building,
Adelaide Women's and Children's Hospital,
King William Rd,
North Adelaide, SA

Primary Immune Deficiency Patient Meeting

The Immune Deficiency Foundation of Australia will be holding a patient meeting in Adelaide. This meeting is open to all people with a primary immune deficiency (PID), their families, supporters and healthcare teams. Membership of IDFA is not a requirement for attendance.

The meeting will provide people with PID the opportunity to:

- Hear Dr Patrick Quinn speak about PID's and subcutaneous versus intravenous immunoglobulin therapy
 - Meet other people with PID and their families
 - Share stories and experiences

This meeting is free to all attendees. Afternoon tea will be provided. Therefore it would help us with planning if you could RSVP. Children are welcome at this patient meeting. Please advise Joy if you are planning on bringing your children and their ages so that we can try to cater for them. Please RSVP by January 20th 2010 to:

Joy Williams,
IDFA Support Services Officer,
support@idfaustralia.org
or freecall: 1800 100 198

(Note: it is never too late to RSVP if you have only just heard about this meeting)

**WE NEED YOUR HELP TO MAKE THIS MEETING A SUCCESS.
PLEASE PASS ON DETAILS ABOUT THIS PATIENT MEETING TO ANYONE ELSE
YOU THINK MAY BE INTERESTED IN ATTENDING.**
